WHAT THIS MONTH FOUND

1 332 of 404 funds returned less than their own stated multiple implied, and 72 returned more.

2 The median fund finished -0.8 percentage points from its own promise, -1.0 for the long funds and 0.5 for the inverse ones.

3 Read the naive way, as the multiple times the period move, 300 funds look short by a median of -1.1 points. That reading is the wrong one and the study says why.
